

WEIGH STATION BYPASS HOW IT WORKS

Get the most from your Bypass Program

With Drivewyze it is legal to follow your in-cab message.

Follow the Omnitrac's driving instruction in order to stay legal.

Your Omnitrac's device will instruct you with one of the following:

- 1 Bypass
- 2 Pull In Unless Closed
- 3 Follow Road Signs
- 4 Follow Transponder

A Drivewyze Bypass Sites

There are almost 800 participating sites.

 At these sites, you will receive *heads up* alerts at **2-miles & 1-mile** - Drivewyze sites indicated by a blue light & banner:

 You will then receive **one** of **four** driving instructions:

Bypass the site

Pull in to the site (unless closed)

Instruction shown on electronic sign

Obey instruction on PrePass transponder

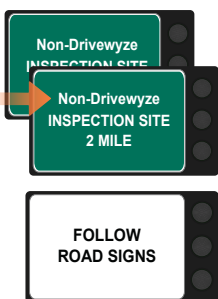

(Follow these messages to stay legal)

B Non-Drivewyze Sites

At sites not participating in the Drivewyze Program, you will receive the following notifications:

 **2-mile** and **1-mile** *heads-up* alerts indicated as Non-Drivewyze.

 You will then receive a driving instruction to **Follow Road Signs**.

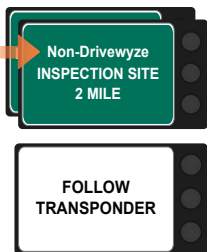

C Sites Covered by Your Transponder

At these sites you must follow the instruction displayed on transponder

 **2-mile** and **1-mile** alerts will show.

 You will receive an instruction to **Follow Transponder**.

D Recall Last Driving Instruction

To show your most recent driving instruction, tap on the Drivewyze logo on your home screen.

E Florida Ag Inspection Sites

 If your fleet has opted into the Florida Ag bypass program, you may receive a **conditional bypass** at these sites.

Reminder: Audio Alerts at All Sites

Please remember to turn your device sound on, as Drivewyze provides **audio alerts** []

Online User Guide

Privacy and Safety

Bypass requests only submit license plate, VIN, and USDOT. Driver information is NOT shared. Bypass events logs are not certified for speed enforcement and cannot be used to issue speeding tickets.

Drivers must always follow safe driving practices and never follow in cab signals if doing so poses a risk to safe driving. This includes moving safely into the lane nearest the eventual weigh station exit. If a driving instruction is delayed, always choose to pull-in safely rather than wait for an instruction.

Drivewyze Bypass Restrictions

All drivers hauling **Oversize** or **Overweight** loads must ignore bypass commands and pull into inspection sites, in all states.

However, note these state-based exceptions:

- **CO** – LCVs with an annual permit can follow bypass commands
- **KS** – LCVs with KTA permit at South Haven Site only, follow bypass command
- **MS** – Approved manufactured housing haulers can follow bypass commands
- **NV** – Oversize loads can follow bypass commands

California Screening Role: Drivers hauling hazardous materials, flammable liquids, or hazardous waste are permitted to follow bypass commands

In the following states all drivers **must pull in**:

- **AL** – Agriculture, livestock, or bulk fuel loads
- **AR** – Placard-bearing HAZMAT and Hazwaste loads
- **AZ** – Placard bearing HAZMAT and Hazwaste loads
- **CO** – Piggy-back/drive-away loads
- **CT** – Placard bearing HAZMAT and Hazwaste loads
- **ID** – Vehicles with an Overlegal permit (not Excess Weight or Extra Length)
- **IN** – HAZMAT loads **and/or** Livestock loads
- **MA** – Placard bearing HAZMAT and Hazwaste loads
- **MD** – All drivers hauling Placarded Hazardous Materials and Hazardous Waste
- **MS** – Private carriers transporting taxable petroleum products
- **MT** – Over-wide loads (wider than 9 ft.)
- **NM** – Must obtain a New Mexico Weight Distance Tax (WDT) Electronic Permit
– Unlicensed Hazmat loads **or** Un-permitted piggy-back/drive-away loads
- **UT** – Livestock and Agriculture loads (incl. bees)
– Un-permitted Oversize/Overweight loads
- **WV** – Unlicensed Hazmat
